

# Dental Office Renovation Design Checklist

Deomax Group | [deomaxgroup.ca](http://deomaxgroup.ca) | GTA & Mississauga

## Regulatory Compliance

- RCDSO infection control standards
- Building code accessibility (AODA)
- Electrical for dental equipment (200A minimum)
- Plumbing for multiple operatories

## Clinical Flow and Layout

- Sterile vs non-sterile zone separation
- Operatory sizing (minimum 120 sq ft each)
- Sterilization room placement
- X-ray room shielding

## Mechanical and HVAC

- Negative-pressure operatories (aerosol control)
- High-volume evacuation (HVE) systems
- Medical-grade air filtration
- Separate HVAC zones for waiting/clinical

## Patient Experience

- Calming waiting area design
- Natural light optimization
- Sound dampening between operatories
- ADA/AODA-compliant washrooms
